

Automatic Battery Isolation Timer

IsoTime

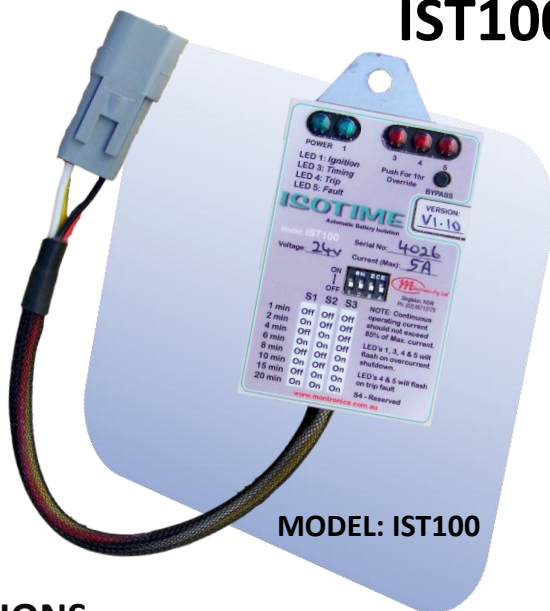

IST100

Designed to be used with a Lucas SSB100 Battery Isolator to give timed automatic machine isolation

BENEFITS

- Automatic timed machine isolation
- Minimise potential for flat batteries

MODEL: IST100

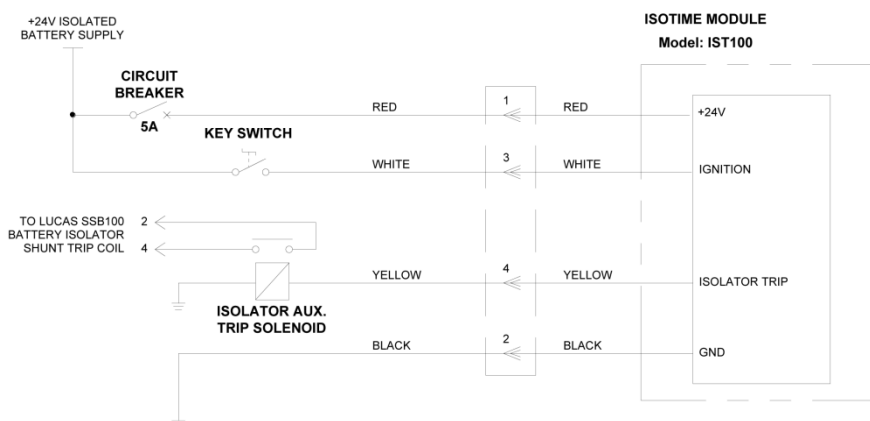

FEATURES

- Compact Design
- Simple Installation
- Reliable Operation
- Standard DT Deutsch Connector
- Compatible with Lucas SSB100 Isolator
- Australian Design & Manufacture
- Inbuilt Trip Fault Protection
- Multiple Time Delay Settings
- LED Indication
- Service By Pass Mode

SPECIFICATIONS

Voltage	24V
Standby Current	15mA
Operating Current	68mA
Maximum Load.....	10 Amp
Time Delay	Set by Code Dip Switches
Time Settings.....	1,2,4,6,8,10,15,20 min
